

FIXED BOLLARD RANGE: SS140FAATM – 1500

A.T.M. Security Bollard

The Supamaxx™ A.T.M. Security bollard has been specially designed to impede and prevent the breaching of A.T.M.'s. This bollard has a 3.4mm wall thickness and with its reinforced steel cross inserts, encased in Supamaxx unique barrier mix, is manufactured to have increased structural integrity and the ability to impede attempted breaches of A.T.M.s. Combined with this is a discreet architectural profile with pure functionality.
