

COMPACT BICYCLE RACK: BRC4 RANGE

Supamaxx™ BRC4 range is a compact Bicycle rack which provides the securing of up to 4 bicycles per rack. The wheel supports have staggered heights which allows bicycles to be located within 300mm spacings rather than the normal 600mm with other racks therefore maximising bicycle parking in the smaller spaces. This rack has single sided access and allows the owner to secure the frame and wheels using their own locks. All Supamaxx can be used towards Green Star Points.

PRODUCT CODE	BRC401	BRC402
