Other overall lengths available on request. (Manufacturing lead times apply).

The superior Supamaxx manufacturing process of all Powder Coated bollards receives a premium Zinc Treatment and then Powder Coated to ensure maximum protection and wear for the life of the bollard. Unless otherwise specified, all Supamaxx bollards are powder coated 'Safety Yellow', with other colours available on request.

All Supamaxx Padlock Removable bollards are supplied with a hinged in-ground locking sleeve (padlock not included) that can be cast into a concrete or retro fitted into an existing concrete slab. We offer a complete installation service, Australia wide, or can assist you with advice on installation techniques for our product range.

*We recommend you always obtain tailored advice from one of our professional staff to ensure you purchase the most suitable product for your specific needs.*
