

# U-RAIL BASE PLATE RANGE: GALVANISED

## COMMONLY USED:

- Warehouse Pedestrian Delineation
- Shopping Complexes
- Commercial Premises
- Petrol Stations

The Supamaxx™ range of U-Rail Galvanised Base Plate rails can be your first line of defence in protecting your property and assets. Supamaxx offers a choice of 3 lengths in this range that offer different levels of protection to cater for your specific needs.

- 100% Made in Australia and 'Not a Cheap Import'
- Hot Dip Galvanised for superior protection against corrosion
- The bollard is galvanised by immersion in molten zinc
- Quality & Reliability that puts Supamaxx ahead of all competition

The superior Supamaxx manufacturing process of all Galvanised U-Rails receives a premium Hot dipped treatment to ensure maximum protection and wear for the life of the rail.

All Supamaxx U-Rail Base Plate rails can be fitted to an existing concrete slab, using masonry or chemical anchors. We offer a complete installation service, Australia wide, or can assist you with advice on installation techniques for our product range.

*We recommend you always obtain tailored advice from one of our professional staff to ensure you purchase the most suitable product for your specific needs.*
