

U-RAIL FIXED RANGE: GALVANISED

COMMONLY USED:

- Warehouse Pedestrian Delineation
- Shopping Complexes
- Commercial Premises
- Petrol Stations

The Supamaxx™ range of U-Rail Galvanised Fixed rails can be your first line of defence in protecting your property and assets, whilst allowing the flexibility of access control to restricted areas. Supamaxx offers a choice of 3 lengths in this range that offer different levels of security to cater for your particular security needs.

- **100% Made in Australia and 'Not a Cheap Import'**
- **Hot Dip Galvanised for superior protection against corrosion**
- **The bollard is galvanised by immersion in molten zinc**
- **Quality & Reliability that puts Supamaxx ahead of all competition**

The superior Supamaxx manufacturing process of all Galvanised rails receives a premium Hot Dip Galvanised Treatment to ensure maximum protection and wear for the life of the rail.

All Supamaxx Fixed U-Rails can be cast into concrete or retro fitted into an existing concrete slab. We offer a complete installation service, Australia wide, or can assist you with advice on installation techniques for our product range.

We recommend you always obtain tailored advice from one of our professional staff to ensure you purchase the most suitable product for your specific needs.
