

# FLEXI STEEL BOLLARD RANGE: BASE PLATE POWDER COATED

The Supamaxx<sup>TM</sup> range of Flexi Steel Base Plate bollards can be your first line of defence in protecting your property and assets. Manufactured with an internally welded spring, the Supamaxx Spring bollard flex's on impact to absorb the force of an accidental collision and minimises damage to the bollard, the vehicle, while still protecting your assets. The bollard will flex to 300mm on impact, then lock out to become ridged. Supamaxx offers a choice of 2 widths, 90mm and 165mm in this range to offer different levels of protection, catering for your specific needs.

- 100% Made in Australia and 'Not a Cheap Import'
- Zinc Treated to protect against corrosion
- Professionally Powder Coated with U.V stabilized coatings that protect from premature fade and rust.
- Quality & Reliability that puts Supamaxx ahead of all competition
