

# CONVEX MIRRORS: CHM600: Hooded outdoor

The Supamaxx™ Hooded Convex Mirror is ideal for outdoor use, but can also be used for indoor applications. Its hood can assist with minimising both sun and internal lighting glare and comes with an adjustable swivel and mounting bracket, designed to fit to a 50mm pole, allowing for adjustment to meet your requirements. Supamaxx's Convex mirrors are virtually unbreakable, being 200 times stronger than glass, unaffected by any type of light and will not produce toxic fumes if burnt.

- 200 times stronger than glass,
- The Ultimate Sculptured finish to compliment any building or structure
- Quality & Reliability that puts Supamaxx ahead of all competition

PRODUCT CODE	CHM600
WIDTH	600mm

Convex mirrors are the ideal solution for reducing collisions and disruptions to your business at locations where visibility is restricted. With their 130 degree viewing angle they allow a clearer view of both vehicular and pedestrian traffic at such locations. This can also reduce litigation against your business. They also offer a solution to surveillance of areas, varying from large warehouses and shopping centres to the corner shop.

#### COMMONLY USED:

- Warehouses and shopping isles
- Retail shops
- Car Park intersections
- Exits from parking areas

#### BENEFITS OF CONVEX MIRRORS

- 200 times stronger than glass
- For indoor or outdoor use
- Ideal for surveillance
- Reduces theft
- Reduces insurance claims
