

220MM BASE PLATE RANGE: GALVANISED

The Supamaxx™ range of 220mm Galvanised Base Plate bollards can be your first line of defence in protecting your property and assets. Supamaxx offers a choice of versions in this range that offer different levels of protection to cater for your specific needs.

- 100% Made in Australia and 'Not a Cheap Import'
- Hot Dip Galvanised for superior protection against corrosion
- The bollard is galvanised by immersion in molten zinc.
- Quality & Reliability that puts Supamaxx ahead of all competition

The superior Supamaxx manufacturing process of all Galvanised bollards receives a premium Hot Dip Galvanised Treatment to ensure maximum protection and wear for the life of the bollard.
