

# WALL MOUNTED BICYCLE RAIL: BRW7 RANGE

**SUPAMAXX™**  
HVM & PERIMETER SECURITY SPECIALISTS

AS2890.3  
COMPLIANT

Supamaxx™ BRW range is the most popular of the wall mounted bicycle rail range. It provides for the securing of 1 bicycle per rail and has the versatility of allowing the installation of multiple rails in a staggered format, with bicycle spacings of 300 - 450mm apart. Due to the compact configuration and the ability to mount the bicycles in an upright angle, the footprint of the area required is greatly reduced, making the BRW range the developers first choice in maximising bicycle parking in limited areas. This rail has two hanging pins which support the wheel and are designed to allow the bicycle to hang in an upright position, while allowing the owner to secure the frame and wheels using their own locks. This Supamaxx bicycle rail meets Australian Standards A.S.2890.3:2015 when positioned correctly and can be used towards Green Star points.

PRODUCT CODE	BRW701	BRW702	BRW706
FIXINGS (Not Included)	4 x M10	4 x M10	4 x M10
PIPE DIAMETER	35mm	35mm	26.7mm
DISTANCE OFF WALL	600mm	600mm	600mm
HORIZONTAL LENGTH	700mm	700mm	700mm
MATERIAL	Galvanised Pipe	Galvanised Pipe	Grade 316 Stainless Steel
FINISH	Hot Dipped Galvanised	Powder Coated	Level 4 Linished

Installation requires the rail to be mounted to a concrete surface using the appropriate security sheer nut masonry anchors to secure the rail. If the composition or structure of the walls do not allow for adequate mounting, Supamaxx can assist with an optional custom 'Mounting Frame' that offers appropriate structural integrity and can be secured to existing floor and ceiling. Supamaxx offers a wide range of robust, versatile Bicycle Rails, Racks, Lockers and Cages.

Aesthetically appealing, functional and cost effective, Supamaxx provides a Bicycle Parking solution to meet all needs.

*We recommend you always obtain tailored advice from one of our professional staff to ensure you purchase the most suitable product for your specific needs.*

## COMMONLY USED:

- Residential properties
- Commercial properties
- Schools
- Recreational parks
- Railway stations
- Street scape

## BENEFITS OF CBICYCLE RAILS

- Can be installed as one unit or multiple units
- Ideal solution for short term bicycle parking
